

Computer Innovations, Inc.

Web-Based Medical Billing

CI Medibill® is a web based comprehensive, full featured Healthcare Billing and Practice management software product, available to you for a nominal subscription per month. CI Medibill® is a Microsoft Windows based software product designed with significant input from practicing medical professionals, to address many of today's clinical practice management challenges. All functions are designed to provide solutions to increase office productivity and efficiency. The software is used by physician offices and our staff at Computer Innovations, Inc. All claims are submitted electronically to major insurance companies like Medicare, Medicaid, Blue Cross Blue Shield and many other Commercial Payors. On a daily basis Computer Innovations, Inc. electronically transmits over 1 million dollars in insurance claims. We also provide an easy to use appointment scheduler for booking patient appointments.

CI Medibill® can be easily accessed through the web for a nominal flat monthly fee. There are no other costs and all you need is a computer connected to the internet. Our product allows your office to have multiple workstations in one office as well as satellite offices. Our software can run on desktops as well as laptops allowing the flexibility to access your data from anywhere in the world. The software allows your office to print various financial reports, daily audits, appointment lists, recall cards, secondary HCFAs and superbills. The software runs on our secure file server in Cheshire, CT and your data files also reside on our file server in Cheshire, CT. Software and file replication is coordinated with our secure collocation backup data center New Wave Industries in Newington, CT. New Wave Industries is a secure state of the art collocation data center which is totally self sufficient by using generators in the event of a power outage. If we have a power loss or a natural disaster at our location in Cheshire, CT we can within minutes switch our data center to our Newington backup site without any loss of data.

Because security is such a huge concern and consideration for many of Computer Innovations, Inc. clients, the company's collocation center has 24-7 security monitoring with unattended access to equipment, a combination biometric hand scanner, and access cards that are required to enter the collocation area.

New Wave has an impressive client list that includes Marketing Resource Consultants, Farmington Savings Bank, Bozzuto's, Columbia, Pfizer, FOX Television, Foxwoods Casino, the State of Connecticut's Department of Public Health, the Mystic Hilton and the Max chain of restaurants.
